About me

As a young entrepreneur and passionate photographer & filmmaker for over 6 years, I have become known in the industry for my extraordinary style through cooperation with various large corporations and hotel chains.

I learned early on that believing in my own potential is the fuel for igniting my creative energy and that this provides the motivation to turn dreams into true visions.

Photography and filming give me the power to make everyday things shine as something irresistible, because beauty is only in the eye of the beholder. This passion for detail can be reflected in my work by expressing my images and film productions with passion and perfectionism.

Creativity is a very important part of my life. It is the discovery, the holding on, the letting flow of what the heart feels and sees in a certain moment, it is the experience, the understanding, the learning and essentially the practice of the freedom of being, of living, of thinking.

Born February 1990, USA. Living in Frankfurt am Main. Photography & film has been my hobby since I was 14 years old. Since 2014 dedicate I my daily work in photography & videography.
